Dig deeper with automated reports.

Reports are automatically generated when stats are added to a match by a coach or Hudl Assist analysts.

01 Goals

Use the stats that matter most to create goals to fuel your team. This report automatically updates for every match that's broken down, so you can see at a glance if your team succeeded.

02 Stats

All sum data links directly to video, so you can quickly jump to the most important moments. Filter by player, match or season to analyse performance from every match.

03 Trends

A visual representation of the highs and lows for each stat over the course of a season - enabling you to adjust your plans as you go along.

04 Box Score

Get a clear view of each match. This report includes stats for both teams, plus an in-depth look at passing stats, to paint a complete picture of the action.
